Servicing the Greater Los Angeles Area

# A day in the life... of an Omnivolt Home

Dim the lights and set the temperature, turn on the basketball game with the audio and video streaming in whichever room you're in, keep a virtual eye on the kids, and then Google a new recipe for dinner... all from your iPad while you walk through the living room. With remote capability, you can control all of the subsystems in your home from inside its walls, or anywhere in the world.

## Home Automation

Bring your home into the 21<sup>st</sup> century with a Smart Home Automation System from Omnivolt. We put all the technology of your house on a single easy-to-use device, reducing clutter and streamlining all of the technology in your day-to-day life.

## Network Solutions

The four main utilities of a home used to consist of water, heat, phone, and electricity; today's homes add a fifth: the Internet! Connect all of your Internet based appliances and devices to one properly designed, secure, high speed, and dynamic home network installed by Omnivolt.

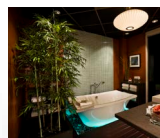

## Home Theater

Experience movies and television the way they were meant to be enjoyed, with crystal clear picture and booming surround sound. Leave the lines and sticky floors behind and enjoy the thrill of owning your very own dedicated theater in the privacy of your own home!

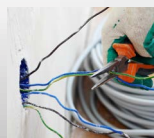

## Distributed Audio & Video

Play music or watch video from any room in your house, easily and conveniently with a handheld device, or wall-mounted touch screen. You select the music or show you want, and the rooms you want to hear or watch it in.

## Lighting & Shade Control

Easily adjust the lighting or shades around you with just the touch of a button from your wall or your smartphone using manual control, or preset scenes. Whether you are interested in a whole-house approach or just one room, Omnivolt has your solution for superior lighting.

## Electrical

Omnivolt specializes in full-service electrical including new construction, remodeling, tenant improvement, backup generator installation and maintenance, panel upgrades, troubleshooting, custom lighting solutions, landscape lighting, and more!

**Control your Home...  
with a Touch of a Button!**

As if there weren't enough Apps for your iPhone and iPad... Now you can add home control to the list! This powerful, attractive, and ground-breaking system makes checking the status or making adjustments to your home a piece of cake!
